THE PREMIER
FISHING & HUNTING
CAPITAL OF ONTARIO

Brought to you by the Red Lake District Publicity Board

TRAVEL NORTH ON HIGHWAY 105!

If it's adventure you seek, this is the trip for you! If it's privacy and relaxation you are looking for, look no further than the Highway 105 Region.

The beauty of nature, the pleasure of time outdoors, the excitement of a bush plane soaring through a cloudless sky, the delight of a canoe skimming across the still waters of a distant lake, the thrill of a fish on the line and the joy of the catch. The Highway 105 Region is all this and more!

On Highway 105, located in beautiful Northwestern Ontario, you are welcomed to the majestic Boreal Forest and the rugged Canadian Shield by breathtaking natural landscapes such as jagged rock outcrops and opaque green forests. Hundreds of clear, sparkling fresh water lakes and endless tracts of pristine forests that continue for miles will create adventure opportunities to motivate the fishing and/or hunting enthusiast in you. The natural landscapes create breathtaking scenery, astonishing sunsets and dancing northern lights for memorable scenes you will not soon forget.

World Class Fishing & Hunting Opportunities await you in our region! Whether you are an avid angler or hunter, or a newbie, fishing or hunting vacations up Highway 105 promise an experience of a lifetime for all ages! With a variety of fishing and hunting lodges and outfitters to choose from, we guarantee you will find an operator who will exceed your expectations.

EXPLORE

A region where the beauty of the rugged and unspoiled wilderness can humble you, a place where being in the presence of natural habitat and breathtaking landscapes can rejuvenate your mind, body and spirit.

DISCOVER

A region rich in heritage, tradition and old-fashioned charm; a place surrounded by the mystery and spirit of Aboriginal culture, the legends and adventures of aviation and the triumph and development of the gold rush.

TRAVEL

An area full of opportunity for you and your family; an area where mining continues to flourish, timber milling is seeing a resurgence and where the quality of life is prime. With ample housing, excellent education and an abundance of recreational and cultural facilities, this gem in the north could be your new home.

C O N T E N T S

THANK YOU

WE WOULD LIKE TO THANK YOU:

Our amazing photographers Dan Kincaid, Patrick Boucha, Gary Worrall, Derek Coffey, Brian Fulton, Chris Marchand from the Dryden Observer, Sandy Beach Lodge, Golden Hook, Chimo Lodge, Five Lakes Lodge, Canadian Fly-in Fishing, Viking Outposts, Municipality of Red Lake, Goldcorp Gold Mines Red Lake, the Red Lake Regional Heritage Centre and Woodland Caribou Provincial Park

The purpose of the Red Lake District Publicity Board is to promote tourism in the Red Lake and adjacent areas; to retain the ability of these communities to promote themselves; to work with other similarly minded organizations throughout the region; to participate in related activities which are not injurious to that end; and to perform these actions on a not-for-profit basis.

If you have questions or need some help in planning your vacation to Perrault Falls, Ear Falls or the Red Lake District? Send us an email or give us a call and we assure you we will do our best to help you find the information you are looking for.

SANDY BEACH LODGE

Sandy Beach lodge is a fly-in fishing resort located 26 miles N.E. of Red Lake Ontario. It is located on Trout Lake, a lake consisting of over 300 sq miles of water. It is dotted with numerous islands and bays to give the fisherman a wide variety of different types of structures to fish. Located in these waters are an abundance of great walleye, Northern Pike and lake Trout.

Our well kept modern cottages accommodate from two to eight guests and provide comfort and relaxation. Each modern cottage is equipped with electric, heat and indoor plumbing. We also have several cabins that are set up for housekeeping as well.

For your next Canadian fishing adventure please keep Sandy Beach Lodge in your thoughts.

EXPLORE HIGHWAY 105!

The King's Highway 105 was officially opened to traffic in August 1947 and owes its existence to the Red Lake Gold Rush. This second most northern King's Highway in the province connects the towns of Perrault Falls, Ear Falls and ends in Red Lake.

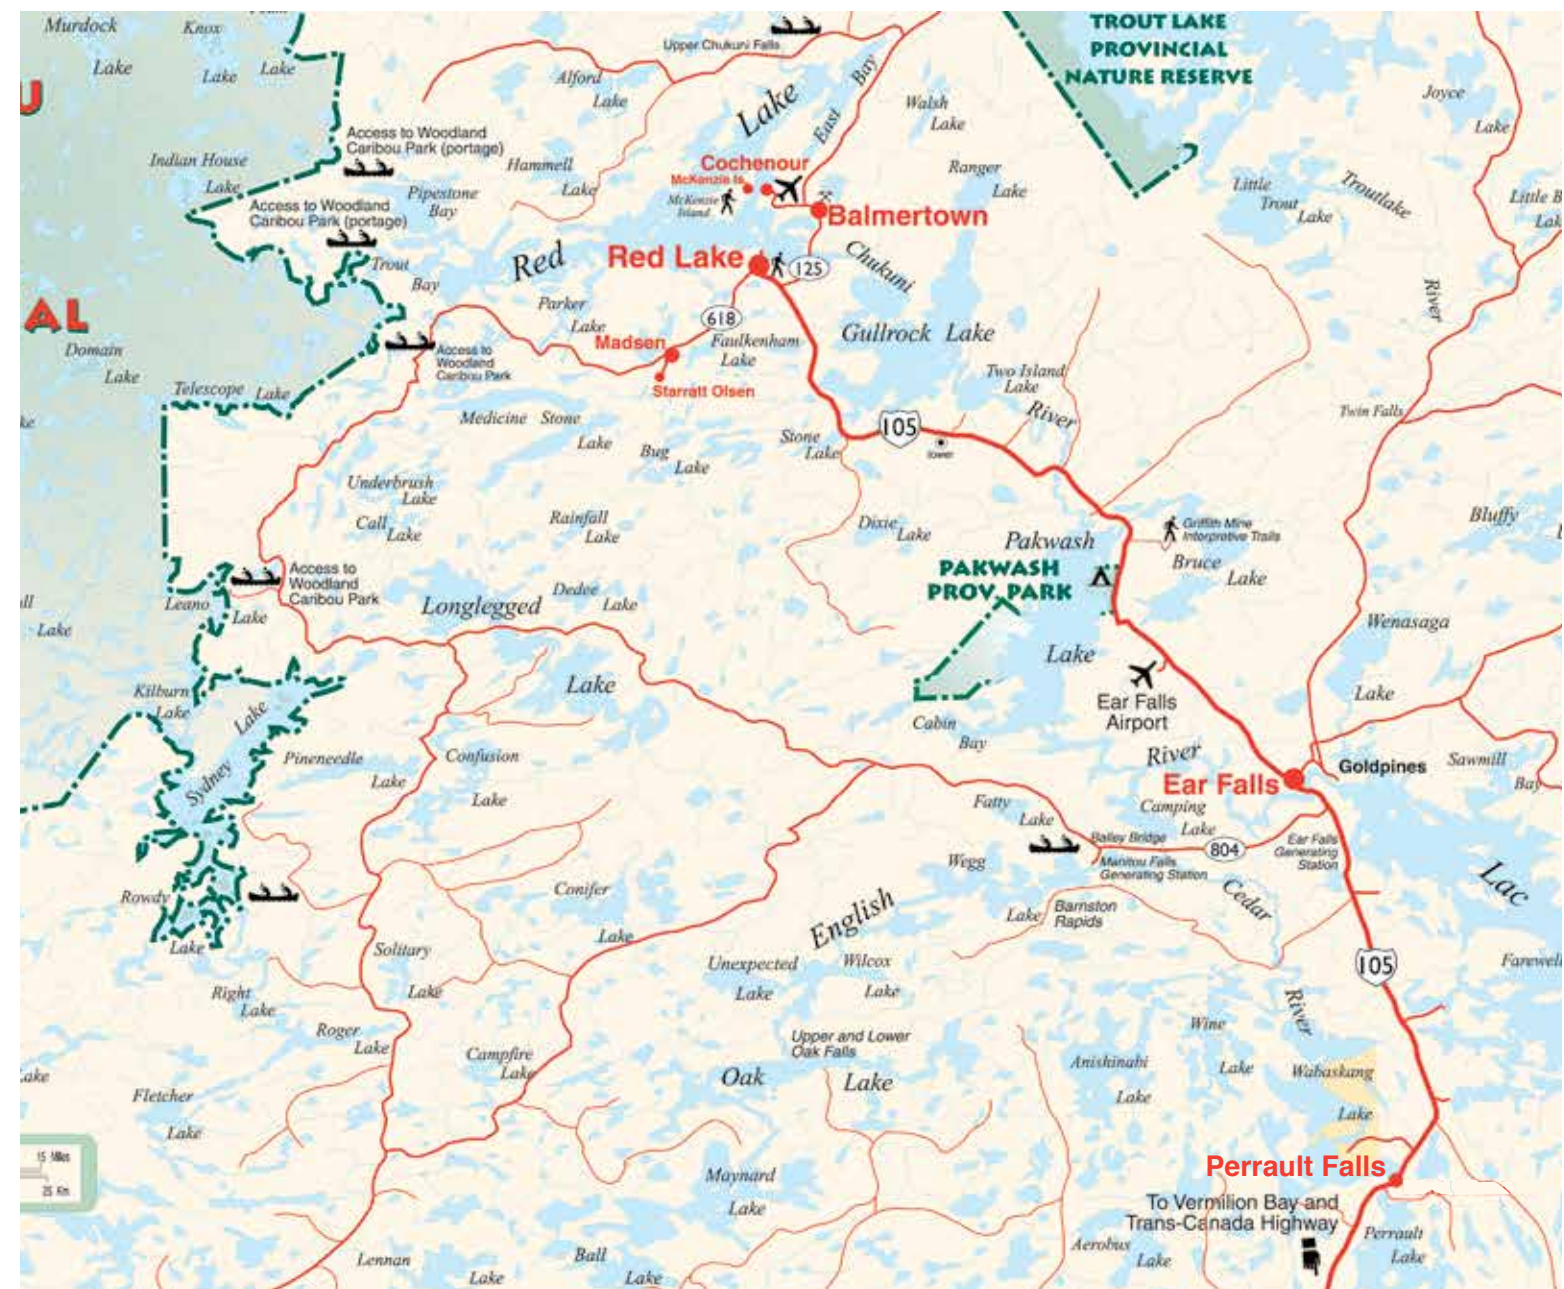

Come along with us for a drive up Highway 105!

START WITH PERRAULT FALLS

Your adventure begins 70 km (43 miles) up Highway 105 at Perrault Falls. The Perrault Falls Adventure Area is a full service vacation destination and home to an abundance of lodges and resorts specializing in walleye, northern pike, muskie and bass fishing. The area promises breathtaking, cascades of water between Perrault and Wabaskang Lakes and is proudly the gateway to fishing on the English and Woman River systems.

The community of Perrault Falls offers a number of amenities such as general stores, a liquor outlet, restaurant, post office and historic points of interest offering any last minute necessities and entertainment for travelers on their way through Hwy 105.

Perrault Falls has 600,000 acres of land, lakes and lodges to explore.

GOLDEN HOOK CAMP

Golden Hook Camp on beautiful and famous Gull Rock Lake is on the Chukuni river system and part of the Red Lake chain of lakes.

The camp's location on the southeast shore of Gull Rock Bay offers a western view with many beautiful sunsets and wildlife moving here and there - NW Ontario at its finest!

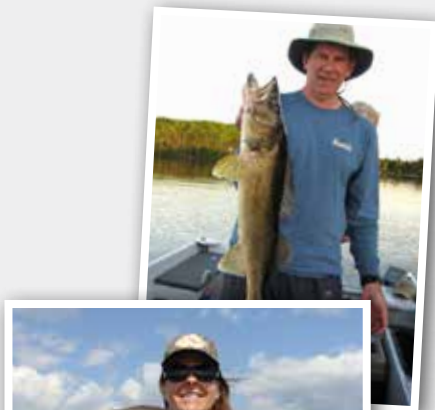

We have modern and semi modern cabins as well as an RV park with full hook ups. The main camp's topography of flat ground allows good access to our twelve foot wide docks and powered slips and our fish cleaning/bait house is convenient and clean.

Golden Hook Camp has a fifty mile Bear Management area EXCLUSIVE to our hunters. We guarantee six active sites to choose from.

We are confident you will be happy!

CONTINUE TO EAR FALLS

A little further as you continue north, 100 km (60 miles) on Highway 105, by the shores of Lac Seul and the English River, you will arrive in Ear Falls. Ear Falls offers hundreds of kilometres of shoreline with stunning scenery ranging from sandy beaches and islands to secluded bays. Ear Falls is known far and wide as a great fishing and hunting destination. Due to its location on famous Lac Seul, Ear Falls ensures an adventure enthusiast's ultimate outdoor experience.

No matter the season or the weather, Ear Falls offers something for everyone to enjoy; star gaze, or relax at the waterfront or get up close and personal with the wildlife. Home to the largest returning nesting populations of Bald Eagles in North America, Ear Falls promises an opportunity to see and capture a photograph of these majestic birds. Just minutes from downtown, the avid sports

fan could enjoy the challenging 9-hole golf course featuring stunning scenery and medium sized greens tacked with the element of water throughout the course.

Ear Falls also offers a variety of services including grocery stores, restaurants, bars, laundromat, service stations as well as an excellent medical clinic and ambulance services that also serves Perrault Falls.

MAKE YOUR WAY TO RED LAKE

Located at the northern end of Highway 105, Red Lake is the most northwesterly Municipality in Ontario. Made up of six distinct town sites Red Lake, Balmertown, Cochenour, Madsen, McKenzie Island and Starratt Olsen, this full service district has quickly become one of the most used tourism hubs for the north. The Red Lake District is known as a premier destination for world class fishing and hunting experiences as well as the Norseman Capital of the World!

There is no need for tall-tale fish stories; in Red Lake you will find the real thing, no matter the time of year!

Red Lake sees strength in its natural beauty, strong economy with motivated and diverse residents. With hundreds of lakes to choose from, the variety of fishing that the Red Lake District has to offer is second-to-none and will never disappoint. The avid fisherman can spend hours on the lakes fishing for a number of different species including

walleye, northern pike, lake trout, muskie, yellow perch and white fish. The hunting enthusiasts are provided with a better than average chance to bag his/her trophy moose or bear.

Stop off at the Red Lake Regional Heritage Centre, a designated tourist information site. The Heritage Centre has all the resources you'll need to plan your stay, from brochures, to maps, to friendly advice from staff.

EXPLORE RED LAKE

Red Lake...come as you are, we'll welcome you. Red Lake is one of those communities that thrives on the relaxed pace of life. You can fish in the morning and be golfing on Ontario's most northerly 18 hole golf course in the afternoon. Nobody has to tell you to relax - that will just come naturally.

Speaking of nature - you are right in the heart of it...

Red Lake has over 500 miles of rugged, beautiful shore line to explore. It's an angler's paradise known for trophy size walleye, northern pike and trout fishing. In June, during the Angler Young Angler fishing derby, aspiring young anglers and their guardians step into 40 boats to vie for top prize. In September, the Fall Classic Catch and Release Walleye fishing tournament accepts over 140 boats competing over 2 days for top prize and next year's bragging rights. If you are interested in competing in

these events better submit your entry quick - the tournament entries fill up fast!

What about hunting? There are several comfortable hunting and fishing lodges in Red Lake that cater to hunters and anglers alike. Whether you are here for the annual moose hunt or fishing for trophy walleye, lodges can accommodate your requirements.

Friendly and knowledgeable staff can arrange everything from guiding to outfitting. Book soon and take advantage of some of the best hunting and fishing experiences in northwestern Ontario. These camps have a lot of repeat customers, bearing testimony to their ability to deliver an adventure you will not soon forget!

Want something to do other than fishing and hunting?

Plan a visit to the Red Lake Regional Heritage Centre and take in the experience as the history of Red Lake's illustrious gold mining story unfolds. The Heritage Centre is one of Red Lake's most beautiful buildings, housing

historical photos, artifacts and interactive displays on mining, aviation, the fur trade, and immigration that fascinate young and old alike. You will find yourself immersed in Red Lake's past, and before long, you will never want to leave.

The Heritage Centre also has one of North America's most prolific collections of Aboriginal artwork, featuring works of Woodland art from prominent artists such as Norval Morrisseau. The Heritage Centre is a must-see for any visitor to Red Lake.

Also on display at the Centre are pictures of the famous Norseman floatplane. In the late 1920s Red Lake had the busiest airport in the world. Fueled by the gold rush, plane loads of men and supplies were ferried by the Norseman plane in and out of Red Lake daily. To this day, the Norseman is the most celebrated floatplane in Red Lake's history and the annual Norseman Festival held in July draws thousands of visitors. It is the premier event in Red Lake so book your hotel early and come and see what you have been missing.

When you come to Red Lake for a day or a week you may want to stay a lifetime. As relaxed as Red Lake's environment is, it is also progressive and provides excellent business opportunities. Our geographical location means tourism and forest related opportunities abound! How about opening a business in the new Highway Commercial area? You will be in good company joining other brand name businesses such as the

Super 8 Motel and Tim Hortons. With over 4000 vehicles passing by daily, you will never be without customers.

How about the amenities?

A brand new state-of-the-art Airport Terminal Building opened in 2011; and a \$6 million medical clinic is scheduled to open late 2014. Our education system will take your children from daycare to

post secondary with the introduction of Confederation College in 2011. Recreational options include a swimming pool, tennis and squash courts, 18 hole golf course, hockey, figure skating, cross country skiing, snowmobiling, quadding, snowshoeing, hiking, biking, weightlifting and fitness machines and basketball. Formal physical activity courses and instruction are available from the Red Lake Recreation department.

MUNICIPALITY OF RED LAKE

What are you looking for on your next fishing trip? Great trophy walleye or northern pike fishing? A remote wilderness location? How about flying on a float plane to where the air is fresh, the water is clear and the cabin is rustic without being primitive? A place to relax and take some time away from the hustle and bustle of everyday life?

Then may I suggest flying to any one of the eleven Chimo Outposts, or to Chimo Lodge situated on beautiful Roderick Lake, where you can enjoy all the great fishing and relaxation the north country has to offer. Each location has something unique that will attract your attention - perhaps a waterfall, a spectacular sunrise or sunset, a beaver hut, a sand beach, the northern lights - the list is endless. Ideal for a family trip, or just spending time with your friends, Chimo Lodge and Outposts has something for everyone.

GOLF

EAR FALLS GOLF & COUNTRY CLUB 9 HOLES

Just minutes from downtown Ear Falls, this challenging golf course with the element of water throughout the course is amid relaxed and friendly company as well as stunning scenery.

RED LAKE GOLF & COUNTRY CLUB 18 HOLES

Ontario's Most Northerly 18 Hole Golf Course

Nestled on Northwestern Ontario's scenic McNeely Bay, the Red Lake Golf and Country Club is a pristine challenging course, set amongst a natural northern wildlife experience.

PHOTOGRAPHY

You know what they say... "Pictures are Memories Frozen in Time" and the memories of your experience visiting our lands and lakes will last you a lifetime! Every community has its own unique history and charm which provides plenty of sightseeing and photography opportunities. With dense bushes, tranquil lakes and rich history to appreciate, you can find yourself exploring our area and always find something new when you return.

Of course we can't forget to mention that the Highway 105 has some of the best wildlife viewing opportunities in Canada. Take a trip and you're sure to spot a Moose, Whitetail Deer, Woodland Caribou, Black Bears, Coyote, Timber Wolves, Lynx, Beaver and Bald Eagles, all in their natural habitat!

Be sure to have your camera ready to capture your memorable moments and the sights you see!

FUN WITH WATER

It is no secret we are proud of our waters surrounding Highway 105 and here's why! With uncountable lakes, there are unlimited opportunities for boating & water sports. Waterskiing, wakeboarding, tubing and jet skiing are just some of the fun water activities to enjoy.

Enjoy a swim at any of our local fresh-water beaches. Rahill beach in Cochenour, a long sandy beach accessible by road or boat, offers beach playground, beach volleyball and tennis court, gazebo picnic areas and designated fire pits. Take pleasure in a refreshing swim in the cool waters of Kinsmen Beach in Red Lake or set yourself up for a picnic in the grassy picnic area. Heading home down Highway 105? Stop at the Patricia Waterfront Park in Ear Falls to play a game of horseshoes, walk on their sandy beach area or enjoy your lunch in a covered picnic facility.

If you're up for an adventure, these waterways can promise beautiful secluded natural sandy beaches offering a quiet place for a shore lunch or a swim.

CANOEING & KAYAKING

With so many lakes and rivers, it would take you a lifetime to explore each one. It's as simple as grabbing your gear, picking a spot and heading out on your adventure and take in the peacefulness that our waters have to offer. For the more experienced paddler, plan a trip into the backwoods of Woodland Caribou Provincial Park where you can view the dancing northern lights while you rest from your campsite on a distant rocky point. Whether you go with or without an outfitter, you are sure to have the paddling trip of a lifetime!

CANADIAN FLY-IN FISHING LTD. CFF - RED LAKE

CFF, the "Original" Canadian Fly-in Fishing Outfitter, providing great fly-in fishing trips and Southern Hospitality in NW Ontario since 1963. Come and experience the thrill of catching a trophy walleye and northern pike on your remote wilderness lake. Your cabin is fully equipped with solar powered lights and hot and cold water, shower/dressing room, complete kitchen with propane refrigerator, freezer and stove/oven and all utensils, wood burning stove, propane barbeque grill on a large wraparound deck, ample firewood, fish cleaning area and access to an emergency satellite phone. Each outpost is equipped with Alumarine boats with 9.9 HP outboard motors and unlimited gas. Throughout the years it has always been our aim to provide our guests the optimum in quality remote outpost fishing and hunting.

FISHING

Come and lose yourself in the exciting surroundings that our area is famous for! Whether you are new to the sport or a seasoned professional, fishing on any of our waterways will guarantee an experience of a lifetime. Our lakes are filled with a variety of species including Walleye, Northern Pike, Lake Trout, Muskie, Yellow Perch and Whitefish; we proudly consider our area an angler's paradise! There is no better way to get away from the hustle and bustle of life than by heading out to the quiet of the Northern Wilderness and enjoying some time on the lake.

An Outdoors Card is required for fishing and hunting for residents & non-residents. The Outdoors Card is valid for 3 years, and only becomes a license when accompanied by a license tag or E-License. For more information, please visit the MNR website at www.mnr.gov.on.ca Ontario is divided into numerous dlzlonz each with its on seasons and lna, designed to provide the most substantial and productive fishery for various species. Information on these ls available in the Recreational Fishing Regulator, Summary available from the Ontario Ministry of Natural Resources. Any of the establishment, hsted in the map will also be pleased to provide you with the pertinent information for their location prior to booking your vacation.

NORTHWEST REGION Some waters have size and catch regulations not mentioned here. Check with your local MNR District Office for complete details on the regulations. Have a safe and happy fishing trip.

WALLEYE LENGTH: 25 - 85 cm (10 - 33 in.) **FOUND:** In lakes and rivers throughout most of Ontario. **SIMILAR FISH:** Sauger Yellow Perch **ID:** White tip on lower tail fin; no distinct blotches or bans on adults. **FAVORITE BAITS:** spinners, jigs,cran baits,worms, minnows, leeches

LAKE TROUT LENGTH: 30-80 cm (12 -31 in.) **FOUND:** In cold waters of deep lakes throughout much of Ontario. **SIMILAR FISH:** Brook Trout **ID:** Light worm like markings and spots on dark background,none red:deeplyforked tall:white leading edge on lowerfins,but no blackline. **FAVORITE BAITS:** spoons, jigs, crank baits, lake trolls

NORTHERN PIKE LENGTH: 45 -100 cm (18 -39 in.) **FOUND:** In quiet,vegetated waters throughout Ontario. **SIMILAR FISH:** Muskellunge **ID:** Light yellowish spots on dark green background; tips of tail fin more rounded than Muskellunge. **FAVORITE BAITS:** spoons, large spinners, large crank baits, minnows

MUSKELLUNGE LENGTH: 71-137cm (28-54 in.) **FOUND:** In discontinuous in southern and near northeastern Ontario,and the Lake of the Woods/Rainy River area. **SIMILAR FISH:** Northern Pike **ID:** Dark vertical bands on light background,attimes spotted or clear;tips of tail fin more pointed than Northern Pike. **FAVORITE BAITS:** large bucktail spinners, large body baits, sucker minnows

ROCK BASS LENGTH: 15 - 20 cm (6 - 8 in.) **FOUND:** Over rocky bottoms. **SIMILAR FISH:** Pumpkinseed, Bluegill & Smallmouth Bass; **ID:** Back and upper sides are brown to olive, with golden tints, and there are often dark saddles; large red eye; regular rows of spot on the side of adults; dorsal fin has 10-13 spines. **FAVORITE BAITS:** small plugs, small spinners, small jigs, or consider using live bait such as worms or insect

HUNTING

Hunters travelling to our area will find a wide range of hunting opportunities. With many remote locations to choose from, you could find yourself hiking through some apparent untouched wilderness in search of the north's majestic giants. It is known that our wilderness provides some of the best hunting for Black Bear and Moose in North America. In addition to these popular animals, hunters can enjoy opportunities for whitetail deer, small game, and duck and migratory bird hunting.

WHITETAIL DEER

Whitetail deer can be found throughout much of Ontario. Their range appears to be expanding northward over time. Abundant food makes almost any forested or bushy area suitable for deer, including parks and green spaces created by people. In winter, as snow deepens, deer concentrate in areas that provide food and shelter from deep snow. During the spring and summer, deer eat leafy material from woody plants, grasses and herbs. They also eat mushrooms and blueberries. In autumn and winter, deer depend largely on the twigs and buds that are within their reach. Acorns are a favourite autumn food for whitetail deer living in eastern Canada.

Size: 0.9 to 1.1 m (3.0-3.5 ft) **Adult Buck:** 45 to 136 kg (100-300 lb) **Adult Doe:** 39 to 60 kg (85-130 lb)

MOOSE

Moose are found across northern and central Ontario. They live near lakes, muskegs and streams of the boreal forest and on the northern tundra. Moose are the largest animal in Ontario. Large males (bulls) weigh up to 600 kilograms. Moose live on a diet of twigs, leaves, shrubs, upland plants and water plants. Moose tolerate cold very well but suffer from heat. In summer, especially during black fly season, moose often cool off in water for several hours each day. Moose are strong swimmers and can dive more than five metres in search of food on the bottom of the lake.

Size: 1.5 to 1.8 m (5.5-6.0 ft) **Bull:** 400 to 545 kg (880-1,200 lb) **Cow:** 375 to 535 kg (825-1,180 lb)

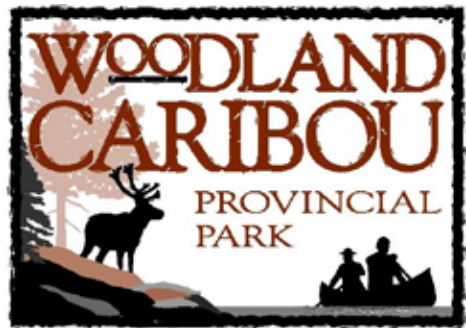

BLACK BEAR

Black bears live throughout most of Ontario and prefer forested areas where they are best able to find food, refuge and den sites. When they are not hibernating, bears spend most of their time looking for food. In the summer, they eat berries such as blueberries, strawberries and raspberries. In the fall, they turn their attention to hazelnuts, mountain ash, acorns and beech nuts. While black bears will eat carrion, insects, fish, deer and moose calves, the bulk of their diet is made up of plants. They like to find lots of high energy food - like huge berry patches - that will help them fatten up fast. Their survival and ability to have young depends on them doubling their weight before winter hibernation. While black is the most common colour, brown and cinnamon phases also occur.

Adult Female: 59 to 104 kg (130-230 lb) **Adult Male:** 91 to 181 kg (200-400 lb)

Provincial Parks

The Red Lake area is the “gateway” to Woodland Caribou Provincial Park. Known as a cultural landscape, at over 486,000 hectares in size Woodland Caribou Provincial Park offers a vast roadless tract of uncut boreal forest protected within the system of Ontario’s Provincial Parks. It protects healthy functioning ecosystems, outstanding cultural landscapes and significant natural features including its namesake the secretive woodland caribou.

To many outdoor travellers Woodland Caribou Provincial Park offers a giant playground. With approximately 2000 kilometres of maintained canoe routes and 20 outpost camps and lodges you may experience everything from paddling quiet

lakes and streams to the creature comforts of quality roofed accommodation. Solitude, unforgettable fishing for walleye, northern pike and lake trout and exquisite scenery are a mainstay of both types of experiences. Shutterbugs will enjoy the chance to capture local wildlife. Moose, caribou, beaver, bear, bald eagle, song and shorebirds are regularly seen. Lynx, wolverine and wolves may also make their presence known.

The park also captures the headwaters of the Bloodvein River. Designated a Canadian Heritage River, the Bloodvein is celebrated for its cultural and historical importance. The river flows westward over 300 kilometers to eventually reach Lake Winnipeg in central Manitoba.

REMOTE YET ACCESSIBLE

Roadless yet accessible is a unique feature of Woodland Caribou. Park staff are available to provide general information to get you acquainted with the park. Local outfitting services will help with your more detailed trip planning needs ranging from partial to complete outfitting, shuttle services to the

parks road and water entry points and float plane access in or out of the parks interior.

There is no greater experience in which to learn and discover Northwestern Ontario’s most precious natural resources.

WHERE NATURE STILL RULES

For all who plan to visit Woodland Caribou, be prepared to experience nature on its terms. Amidst its wildness you will witness rugged beauty and experience its powerful moods. Prepare to be humbled by towering cliffs or by a sudden summer storm as you scurry to shelter. Understand that the trails you share with others were laid out generations ago by the ancestors of the area’s First Nations. Observe the circle of life in the boreal forest by paying closer attention to the rich re-growth in the wake of a recent forest fire.

Indulge your sense of adventure but remember to treat the area with respect. Soak it all in allowing your mind, body and spirit to be rejuvenated as far too soon the journey will end and you will draw upon your memories to sustain you until your next visit.

FIVE LAKES LODGE

Five Lakes Lodge is a completely modern, drive-in hunting and fishing resort. Located on the shores of Gullrock Lake, only 10 minutes south of Red Lake Ontario. Gullrock is known for its abundance of Walleye and Northern Pike and consistently produces many trophy fish. Offering day trips to 3 other Outpost lakes, where you can be the only boat on the lake and catch Walleye, Northern, Muskie and Perch.

Fall bear hunting and bird hunting are available for the avid hunter. With the abundance of clear cuts and bush trails, wildlife is never hard to find. With two different BMAs you have the option of a fully baited and guided hunt or can set up your own self-guided hunt.

Wolf hunts are available for the winter hunter. These hunts are guided and baited in remote locations that are accessible by snow machine. The hunting is done out of a heated ground blind that is set up for a rifle hunt.

Winter at Five Lakes Lodge offers a warm cabin with satellite TV and internet. Ice fishing lakes that are only accessible by snow machine and trail riding the numerous brush trail, is every winter enthusiast's dream. Hundreds of trails and lakes provide enjoyment to any winter outdoorsman. Winter fishing includes, Trout, Walleye, and Northern and Perch.

Five Lakes Lodge is a family oriented business that will satisfy any outdoorsmen's needs, summer, fall, winter and spring.

LA FRANCOPHONIE À RED LAKE

La langue française est vivante et en croissance dans le district de Red Lake. On estime qu'entre 10-25% des résident(e)s sont bilingues : français et anglais. Venez nous rejoindre pour grandir une communauté franco-ontarienne rayonnante.

COMMUNITIES IN BLOOM

For 13 years, a small but dedicated group has been making Red Lake an attractive place to live in. Thanks to the support of The Municipality of Red Lake, the generosity of locals at fundraisers and a small group of volunteers, thousands of hours have been spent beautifying the towns in our Municipality. Communities in Bloom is proud to put forth the efforts that result in the showcasing of a clean, appealing and thriving Municipality.

COMMUNITIES IN BLOOM PROJECTS:

- Maintenance of the local flower beds such as the Perennial Garden at the "turnaround" in Red Lake, the "Lakeview Garden", the flower bed at the Municipal Office, the flower beds at Rahill Beach, the flowers in Madsen, and many more!
- "ADOPT-A-POT": 145 Adopt-A-Pots are planted and sold each Spring. Communities in Bloom plants the pots and delivers them to the businesses and individuals who purchase them. Carol Fischer from Chukuni Greenhouses is a great help in this project as are many local businesses.
- The rejuvenation of Norseman Park is another exciting project spearheaded by this group. Their Butterfly Garden is designed to attract Monarch Butterflies to the milkweed planted in the park.
- "Garbathon" - cleaning up litter throughout the Municipality.

Communities in Bloom adds magic to our area every year at Christmas with their ice candle project. They make 250 ice candles and place them throughout the Municipality with the help of Supreme Auto Body and the Harmony Centre. They are lit by the families and friends of volunteers on Christmas Eve, Christmas Day, New Year's Eve and New Years night. What a wonderful way of beautifying the Municipality and of saying thanks to the people who have helped Communities in Bloom throughout the year. Many people have made driving around to see the candles part of their Christmas celebration.

WINTER FUN ON HIGHWAY 105!

Imagine the sound of crisp snow crunching beneath your feet or the thrill of reeling up a Lake Trout through a hole in the ice. North on Highway 105 the fun is never limited to only the summer months! When the snow starts to fall and the temperatures drop, ice fishing, cross country, skiing, snowshoeing and snowmobiling are popular activities to enjoy outside!

For snowmobile enthusiasts, the Trailmasters Club preserves many miles of snowmobile trails in good condition and hosts the "snow poker" every January. For more trail information visit www.nwosta.ca

Fishing doesn't stop when the snow falls! As soon as the temperature cools enough for the lakes to freeze, anglers bundle up and

head out to fish for numerous species of fish such as lake trout, walley and pike to name a few!

Early in the winter season, the Red Lake Cross Country Ski Club maintains over 40 km of groomed and tracked trails for Red Lake cross country skiers and travelers to enjoy. As the weather gets colder and the waterways freeze, skiers have the opportunity to ski across the ice to McKenzie Island. Located in the green space between the Red Lake Recreation Centre and the Red Lake Regional Heritage Centre, a new short ski loop has been created at Centennial Park.

Learn more about cross country skiing in the district at: www.skiredlake.ca

HOCKEY The 2014-15 hockey season marks the second year for the English River Miners in the SIJHL. After a solid inaugural campaign which saw the Miners reach the league Semifinals, the team is hoping to improve on their performance from a year ago. A solid depth of veterans and a core group of rookies makes this an exciting well balanced team to watch for fans of all ages. This local team provides provide high quality entertainment at a very low cost. Come out and support your Miners! With a 27 game home schedule including 3 games in Cochenour they offer plenty of opportunities for the whole family to enjoy a game. They look forward to seeing you at the games. GO MINERS! www.englishriverminers.com @E_R_Miners

VIKING OUTPOSTS

Hugh and Craig Carlson own and operate this air service and 12 outposts. They have 2 de Havilland Beavers, 1 Cessna 185 and 1 Cessna 180. The outposts are on a variety of lakes from small to 25 miles long, from 25 to 100 air miles from Red Lake. Walleye and northern are found in all the lakes and some lakes have lake trout as well. Unguided Moose Hunts are a specialty. They fly canoers, other property owners, government people and adventurers. If you are interested, please check us out online, call or email us.

**ONTARIO POWER
GENERATION**

OUR EVENTS SEE THE MAP FOR A LIST OF THE 2015 EVENTS HAPPENING ON HWY 105!

TROUT FOREST MUSIC FESTIVAL

"The Trout" has become one of the most popular music festivals in Northern Ontario. Located at the Ear Falls Waterfront Park along the shores of beautiful Lac Seul, this annual event attracts friends and families from all over the Country! Along with great music, the festival features a wide variety of entertainment for all ages including a beautiful sand beach and nightly jam sessions by a bonfire underneath a starfilled northern sky. A wide range of food is offered at the food concessions or Frank's Tavern, across the street, where you can relax with a cold drink while you enjoy the sounds at the sheltered stage. This great musical experience is guaranteed to be enjoyed by all! To follow the updates for this year's festival, visit www.troutfest.com

GYRO ICE FISHING DERBY

This annual ice-fishing derby is a great way to spend time with friends and family. Head over to McKenzie Island by ice road, pick your hole and try to reel in the big fish for the day! The Gyro Hall offers a place to warm up and enjoy some snacks in between fishing. It's a great way to introduce people, young and old, to the fun of ice fishing!

RED LAKE WALLEYE FALL CLASSIC

The Red Lake Fall Classic Fishing Tournament is held annually throughout the Labour Day weekend in September. This catch and release tournament on the Red Lake waterway is for cash, merchandise and the prestige of being number one.

RED LAKE NORSEMAN FLOATPLANE FESTIVAL

Red Lake's Norseman Floatplane Festival is an exciting, all ages, annual event that occurs each year in the latter part of July. Traditionally it has attracted aviation enthusiasts from around the world and introduced many newcomers to the freedom of float flying. The 20 plus year old celebration now kicks off at the Red Lake Airport, located in near-by Cochenour with an event called **ROCK THE RUNWAY**. Rock the Runway Events in 2014 included exhibits of historic artifacts, a Wings and Wheels static display of aircraft varying from the Norseman to the Harvard II and vintage vehicles, Pitt Special aerobatic flights, Fire Fit demonstration and concluded with a concert in the evening! Following Rock the Runway, the Norseman Festival presents a weekend featuring the popular

Float Plane Fly-by, when a group of iconic Norseman aircraft complete a short air show at Howey Bay. The Norseman Festival also offers Norseman Rides, Outdoor Movie on an inflatable big screen, in-town market and live music for the whole! www.norsemanfestival.on.ca

POW WOW

The steady beat of the drum, their songs carried on by the wind, the sound of the jingles and feet gently touching the ground as they dance. These are the sounds of the Indigenous People coming together to host and celebrate Red Lake's Annual Community Pow Wow. Every year offers a different experience. The event is started off with a sacred blessing of the grounds and then the event ends with a large feast. Throughout the day you can enjoy the taste of fresh baked and fried bannock, as well as Indian Taco's, bannock burgers and dogs. Every year is different in the amount of drums that joins in, but what doesn't change is the amazing traditional music and dances that drummers and dancers share with you. Listen and watch the festivities, or even join in on one of the ceremonial dances. Everyone is welcomed and encouraged to take part. This is a cultural learning experience you will remember for a lifetime.

GOLDCORP

RED LAKE GOLD MINES

Goldcorp is one of the world's fastest growing senior gold producers, with operations and development projects located in safe jurisdictions throughout the Americas. A Canadian company headquartered in Vancouver, British Columbia, Goldcorp employs more than 19,000 people worldwide. Our sustainability goal is to achieve a balance of economic prosperity, environmental stewardship and social responsibility that extends beyond the economic lives of our mining operations.

RED LAKE GOLD MINES

Red Lake Gold Mines is Goldcorp's Canadian cornerstone and amongst the world's richest gold mines.

As Goldcorp's top producer, yielding 493,000 ounces in 2013, the High Grade Zone is the backbone of the Red Lake operation with an average grade of more than two ounces of gold per tonne.

Red Lake is developing the Bruce Channel discovery at the nearby Cochenour project. The project is progressing on schedule with first development ore expected in the fourth quarter of 2014.

Red Lake is positioned for many more years of long-term sustainable production.

COMMUNITY RELATIONS

We strive to partner with local stakeholders to understand their needs and address their questions, and to conduct our business in a way that supports strong, vibrant and sustainable communities. Our donations prioritize four core funding areas: Education, Health, Community Development, and Arts and Culture. Some of Red Lake's achievements in community relations include:

- Red Lake's commitment to community and sustainable economic benefits is demonstrated by the Obishikokaang

Collaboration Agreement (OCA) signed in 2013 between Goldcorp and the members of the Lac Seul First Nations (LSFN).

- Goldcorp donated \$5 million to the Municipality of Red Lake towards the construction of a new Red Lake Medical Clinic. The new facility is paramount to the attraction and retention of medical professionals to the Red Lake area to better serve over 5,000 residents, including those from surrounding communities. The Medical Clinic is scheduled to open in early 2015.
- A variety of donations and sponsorships to local organizations including the English River Miners hockey team, Wilderness Entertainment Series, Relay for Life, Regional Heritage Centre programs, Norseman Day Festival, Red Lake Margaret Cochenour Hospital Foundation, district schools' and community sports, and local fish derbies to name a few.
- Red Lake also contributes to programs that support youth in surrounding communities such as the Mining Matters Mining Rocks Earth Science Program and the Right to Play Promoting Life-Skills in Aboriginal Youth (PLAY) Program. Red Lake Gold Mines supported a one-week Mining Rocks Program in July 2014 in Lac Seul First Nation and Wabauskang First Nation. Youth from the two communities came together on the last day of the program for a site tour at Red Lake Gold Mines. Terry

Bursey, Aboriginal & Community Affairs Coordinator, Goldcorp Red Lake Gold Mines commented:

"Goldcorp is a proud sponsor of the Mining Matters program aimed at teaching Aboriginal youth about geology, the mining industry and potential future employment choices. These types of programs are tremendously important in building strong sustainable partnerships which foster future employees, leaders and awareness of our operations. The Participants showed such enthusiasm and passion, it was truly inspiring!"

- Right To Play's PLAY Program is active in 57 partner First

Nation communities and urban Aboriginal organizations. Two First Nations communities located near Red Lake, Lac Seul First Nation and Wabauskang First Nation, actively participate in the program. PLAY programming supports community development through the transformative power of play and sport. PLAY's weekly programming provides children and youth with the opportunity to grow their leadership & life skills, build friendships and have fun.
